CELLULAR RESPIRATION.

MULTIPLE CHOICE. Circle ALL that are TRUE. There may be more than one correct answer. \_\_\_\_\_ is the first step in cellular respiration that begins releasing

# File Type PDF Answers To The Cellular Respiration

energy stored in glucose. A.  
Alcoholic fermentation. B. Lactic  
acid fermentation. C. Glycolysis.  
D. Electron transport chain

## CELLULAR RESPIRATION - BIOLOGY JUNCTION

The main product of any cellular

# File Type PDF Answers To The Cellular Respiration

respiration is the molecule  
adenosine triphosphate (ATP).  
This molecule stores the energy  
released during respiration and  
allows the cell to transfer this  
energy to various parts of the  
cell. ATP is used by a number of  
cellular components as a source

# File Type PDF Answers To The Cellular Respiration of energy.

## Cellular Respiration - Definition, Equation and Steps ...

Cellular respiration occurs in most cells of both plants and animals. It takes place in the mitochondria, where energy from nutrients

# File Type PDF Answers To The Cellular Respiration

Virtual Lab  
converts ADP to ATP. ATP is used for all cellular activities that require energy. In this laboratory, you will observe evidence for respiration in pea seeds and investigate the effect of temperature on the rate of respiration.
