First published nearly a quarter-century ago and one of the very few short-story collections to win the PEN/Faulkner Award, this is American fiction at its most vital—each narrative a masterpiece of sustained power and seemingly effortless literary grace. Two New York attorneys newly flush with wealth embark on a dissolute tour of Italy; an ambitious young screenwriter unexpectedly discovers the true meaning of art and glory; a rider, far off in the fields, is involved in an horrific accident—night is falling, and she must face her destiny alone. These stories confirm James Salter as one of the finest writers of our time. BONUS: This edition includes an excerpt from James Salter's All That Is.

NOMINATED FOR THE 2002 HUGO AND LOCUS AWARD When J.R.R. Tolkien created the extraordinary world of Middle-earth and populated it with fantastic, archetypal denizens, reinventing the heroic quest, the world hardly noticed. Sales of The Lord of the Rings languished for the better part of two decades, until the Ballantine editions were published here in America. By late 1950s, however, the books were selling well and beginning to change the face of fantasy. . . . forever. A generation of students and aspiring writers had their hearts and imaginations captured by the rich tapestry of the Middle-earth mythos, the larger-than-life heroic characters, the extraordinary and exquisite nature of Tolkien's prose, and the unending quest to balance evil with good. These young readers grew up to become the successful writers of modern fantasy. They created their own worlds and universes, in some cases their own languages, and their own epic heroic quests. And all of them owe a debt of gratitude to the works and the author who first set them on the path. In Meditations on Middle-earth, sixteen bestselling fantasy authors share details of their personal relationships with Tolkien's mythos, for it inspired them all. Had there been no Lord of the Rings, there would also have been no Earthsea books by Ursula K. Le Guin; no Song of Ice and Fire saga from George R. R. Martin; no Tales of Discworld from Terry Pratchett; no Legends of Alvin Maker from Orson Scott Card. Each of them was influenced by the master mythmaker, and now each reveals the nature of that influence and their personal relationships with the greatest fantasy novels ever written in the English language. If you've never read the Tolkien books, read these essays and discover the depth and beauty of his work. If you are a fan of The Lord of the Rings, the candid comments of these modern mythmakers will give you new insight into the subtlety, power, and majesty of Tolkien's tales and how he told them. Meditations on Middle-Earth is a 2002 Hugo Award Nominee for Best Related Work.

The key to teaching business ethics successfully, says Sims, is to start with clear goals and a sensible expectation of outcomes, and with a true knowledge and appreciation of how people actually learn. Proceeding with the conviction that open communications between teacher and student before, during, and after the teaching experience is vital, Sims identifies key teaching processes, gives practical advice on designing and planning the curriculum, and offers guidance on how to develop a climate conducive to effective learning. He also emphasizes learning styles and experiential learning theory as cornerstones of teaching business ethics, an approach unlike any in the literature. An important guide for those who are new to teaching this essential subject, Sims' book will also help more experienced teachers who wonder why their own methods do not always work, or do not work as well as they think they should.
