An Authentic And Comprehensive Text Book On Business Statistics Covering The Entire Syllabus Of B.Com. (Hons.), 1st Year (Paper Iv), Delhi University *Written In A Lucid Style And Simple Language With A View To Present A Qualitative Understanding Of The Subject. *Comprehensive Step-By-Step Explanations For Easier Understanding Of All The Topics. *Each Chapter Starts With Chapter Objectives. *Numerous Solved Examples In Each Chapter. *Much Attention Paid To The Selection Of Illustrations And Exercises Throughout The Book. *Answers To All The Problems In A Exercise Given Immediately After The Exercise. *A Large Number Of Exercises Given At Appropriate Places In Each Chapter. *Incorporates Almost All Questions Sets At Delhi University Examination As Well As The Professional Courses With Complete Solutions At Appropriate Places Throughout The Book.

This seventh edition of 'Business Mathematics and Statistics' provides a thorough grounding in basic mathematical and statistical techniques, helping students to learn how to make decisions when presented with incomplete information. Comprehensive coverage of statistical methods, management mathematics and probability and extensive examples and questions make this essential reading for students on business and accounting courses and also students studying economics.

BUSINESS MATHEMATICS 1. Arithmetic Progression (A.P.), 2. Geometric Progression (G.P.), 3. Harmonic Progression (H.P.), 4. Properties of A. P., G. P. and H. P., 5. Permutation and Combination, 6. Determinants, 7. Matrices, 8. Set Theory, 9. Differentiation, 10. Integration, STATISTICS 1. Measures of Central Tendency : Arithmetic Mean, 2. Median, 3. Mode, 4. Geometric Mean, 5. Harmonic Mean, 6. Analysis of Time Series, 7. Theory of Probability, 8. Interpolation and Extrapolation, Log and Antilog Tables Latest Model Paper Board Examination Paper.

The Book Explores The Evolution And Recognition Of Law, At The Domestic And International Levels, Related To Indigenous Peoples New Dominated By Others.

Fundamentals of Business Statistics is intended to serve as a core textbook for undergraduate students of BBA, BCA, B Com and CA, ICWA and those who need to understand the basic concepts of business statistics and apply results directly to real-life business problems. The book also suits the requirement of students of AMIE, who need both theoretical and practical knowledge of business statistics. The second edition has been extensively revised with the objective of enhancing and strengthening the conceptual, as well as practical knowledge of readers about various techniques of business statistics. Its easy-to-understand approach will enable readers to develop the required skills and apply statistical techniques to decision-making problems. With a completely new look and feel, this book will facilitate the teaching of business statistics techniques as well as enhance the learning experience for students. New in This Edition

- Completely revised and reorganized text to make explanations more cogent through relevant and interesting examples.
- Large number of new business-oriented solved as well as practice problems representing the various business statistics techniques.
- Explanations well illustrated with numerous interesting and varied business-oriented examples.
- Pedagogical features like Conceptual Questions, Self Practice Problems with Hints and Answers.
- Complete conformity to the latest trends of questions appearing in universities and professional examinations.

Essential Mathematics for Economics and Business is established as one of the leading introductory textbooks on mathematics for students of business and economics. Combining a user-friendly approach to mathematics with practical applications to the subjects, the text provides students with a clear and comprehensible guide to mathematics. The fundamental mathematical concepts are explained in a simple and accessible style, using a wide selection of worked examples, progress exercises and real-world applications. New to this Edition Fully updated text with revised worked examples and updated material on Excel and Powerpoint New exercises in mathematics and its applications to give further clarity and practice opportunities Fully updated online material including animations and a new test bank The fourth edition is supported by a companion website at www.wiley.com/college/bradley, which contains: Animations of selected worked examples providing students with a new way of understanding the problems Access to the Maple T.A. test bank, which features over 500 algorithmic questions Further learning material, applications, exercises and solutions. Problems in context studies, which present the mathematics in a business or economics framework. Updated PowerPoint slides, Excel problems and solutions. "The text is aimed at providing an introductory-level exposition of mathematical methods for economics and business students. In terms of level, pace, complexity of examples and user-friendly style the text is excellent - it genuinely recognises and meets the needs of students with minimal maths background." —Colin Glass, Emeritus Professor, University of Ulster "One of the major strengths of this book is the range of exercises in both drill and applications. Also the 'worked examples' are excellent; they provide examples of the use of mathematics to realistic problems and are easy to follow." —Donal Hurley, formerly of University College Cork "The most comprehensive reader in this topic yet, this book is an essential aid to the avid economist who loathes mathematics!" —Amazon.co.uk
