The city of Voortyashtan was once the home of the goddess of death, war and destruction, but now it's little more than a ruin. General Turyin Mulaghesh is called out of retirement and sent to this hellish place to find a Saypuri secret agent who's gone AWOL in the middle of a mission. But the ghosts of past wars have followed her there, and soon she begins to wonder what happened to the souls in the afterlife when the gods were defeated by her people, the Polis. Do the dead sleep soundly in the land of death? Or do they have plans of their own?

A special omnibus edition, collecting all three books of Robert Jackson Bennett ' s acclaimed Divine Cities trilogy in a single volume. In a world where terrifying, capricious gods once walked the earth, enslaving and brutalizing millions, three unforgettable protagonists struggle to come to terms with the mysteries these divinities left behind— and to make sure these cruel masters do not rise again. In City of Stairs, an unassuming young woman named Shara Thivani arrives in Bulikov, the city that once wielded the powers of the gods to conquer the world. Officially, she is just another junior diplomat, dispatched by the city ' s new colonial masters; unofficially, she is one of her country ' s most accomplished spies, on a mission to solve a murder. As she pursues the killer, she begins to suspect that the gods who once guarded Bulikov are not as dead as they seem, and that the city ' s cruel reign may begin anew. In City of Blades, General Turin Mulaghesh—foul-mouthed hero of the battle of Bulikov, rumored war criminal, ally of an embattled prime minister—is pressed into service one last time, investigating a terrifying discovery in the city of Voortyashtan, once the stronghold of the god of war and death. Voortyashtan ' s god is most certainly dead, but something is awakening in the city. And someone is determined to make the world tremble at the city ' s awful power once again. In City of Miracles, the formidable, seemingly unkillable Sigrud je Harkvaldsson returns from self-imposed exile on a mission of revenge, only to find himself embroiled in a battle that may be beyond even his abilities to win—a secret, decades-long war that will force him to confront the last mysteries of Bulikov, the city of miracles itself.

An atmospheric and intrigue-filled novel of dead gods, buried histories, and a mysterious, protean city--from one of America's most acclaimed young fantasy writers. The city of Bulikov once wielded the powers of the gods to conquer the world, enslaving and brutalizing millions—until its divine protectors were killed. Now Bulikov has become just another colonial outpost of the world's new geopolitical power, but the surreal landscape of the city itself—first shaped, now shattered, by the thousands of miracles its guardians once worked upon it—stands as a constant, haunting reminder of its former supremacy. Into this broken city steps Shara Thivani. Officially, the unassuming young woman is just another junior diplomat sent by Bulikov's oppressors. Unofficially, she is one of her country's most accomplished spies, dispatched to catch a murderer. But as Shara pursues the killer, she starts to suspect that the beings who ruled this terrible place may not be as dead as they seem—and that Bulikov's cruel reign may not yet be over.

"The exciting beginning of a promising new epic fantasy series. Prepare for ancient mysteries, innovative magic, and heart-pounding heists."--Brandon Sanderson "Complex characters, magic that is tech and vice versa, a world bound by warring trade dynasties: Bennett will leave you in awe once you remember to breathe!"--Tamora Pierce In a city that runs on industrialized magic, a secret war will be fought to overwrite reality itself--the first in a dazzling new series from City of Stairs author Robert Jackson Bennett. Sancia Grado is a thief, and a damn good one. And her latest target, a heavily guarded warehouse on Tevanne's docks, is nothing her unique abilities can't handle. But unbeknownst to her, Sancia's been sent to steal an artifact of unimaginable power, an object that could revolutionize the magical technology known as scrying. The Merchant Houses who control this magic--the art of using coded commands to imbue everyday objects with sentience--have already used it to transform Tevanne into a vast, remorseless capitalist machine. But if they can unlock the artifact's secrets, they will rewrite the world itself to suit their aims. Now someone in those Houses wants Sancia dead, and the artifact for themselves. And in the city of Tevanne, there's nobody with the power to stop them. To have a chance at surviving--and at stopping the deadly transformation that's under way--Sancia will have to marshal unlikely allies, learn to harness the artifact's power for herself, and undergo her own transformation, one that will turn her into something she could never have imagined.

As a magical revolution remakes a city, an ancient evil is awakened in a brilliant new novel from the Hugo-nominated author of Foundryside and the Divine Cities trilogy. A few years ago, Sancia Grado would ' ve happily watched Tevanne burn. Now, she ' s hoping to transform her city into something new. Something better. Together with allies Orso, Gregor, and Berenice, she ' s about to strike a deadly blow against Tevanne ' s cruel robber-baron rulers and wrest power from their hands for the first time in decades. But then comes a terrifying warning: Crasedes Magnus himself, the first of the legendary hierophants, is about to be reborn. And if he returns, Tevanne will be just the first place to feel his wrath. Thousands of years ago, Crasedes was an ordinary man who did the impossible: Using the magic of scrying—the art of imbuing objects with sentience—he convinced reality that he was something more than human. Wielding powers beyond comprehension, he strode the world like a god for centuries, meting out justice and razing empires single-handedly, cleansing the world through fire and destruction—and even defeating death itself. Like it or not, it ' s up to Sancia to stop him. But to have a chance in the battle to come, she ' ll have to call upon a god of her own—and unlock the door to a scrying technology that could change what it means to be human. And no matter who wins, nothing will ever be the same. The awe-inspiring second installment of the Founders Trilogy, Shorefall returns us to the world Robert Jackson Bennett created in his acclaimed Foundryside . . . and forges it anew.

It is the time of the Great Depression. Thousands have left their homes looking for a better life, a new life. But Marcus Connelly is not one of them. Some places are too good to be true. Under a pink moon, there is a perfect little town not found on any map. In that town, there are quiet streets lined with pretty houses, houses that conceal the

And the closer Mona gets to her mother's past, the more she understands that the people of Wink are very, very different ... From one of our most talented and original new literary voices comes the next great American supernatural novel: a work that explores the dark dimensions of the hometowns and the neighbors we thought we knew.

Vaudeville: mad, mercenary, dreamy, and absurd, a world of clashing cultures and ferocious showmanship and wickedly delightful deceptions. But sixteen-year-old pianist George Carole has joined vaudeville for one reason only: to find the man he suspects to be his father, the great Heironomo Silenus. Yet as he chases down his father's troupe, he begins to understand that their performances are strange even for vaudeville: for wherever they happen to tour, the very nature of the world seems to change. Because there is a secret within Silenus's show so ancient and dangerous that it has won him many powerful enemies. And it's not until after he joins them that George realizes the troupe is not simply touring: they are running for their lives. And soon...he is as well.

The year is 1919. The McNaughton Corporation is the pinnacle of American industry. They built the guns that won the Great War before it even began. They built the airships that tie the world together. And, above all, they built Evesden—a shining metropolis, the best that the world has to offer. But something is rotten at the heart of the city. Deep underground, a trolley car pulls into a station with eleven dead bodies inside. Four minutes before, the victims were seen boarding at the previous station. Eleven men butchered by hand in the blink of an eye. All are dead. And all are union. Now, one man, Cyril Hayes, must fix this. There is a dark secret behind the inventions of McNaughton and with a war brewing between the executives and the workers, the truth must be discovered before the whole city burns. Caught between the union and the company, between the police and the victims, Hayes must uncover the mystery before it kills him.
