The saga of Dark Angel continues! Someone is killing normal humans in the fog-enshrouded city of Seattle. The murders are brutal and grisly, but inside Terminal City they barely cause a ripple of concern. The transgenics who live there have problems of their own. In an area under siege by the oppressive arm of the police, the transgenics must protect their fledgling colony against the outside world—a world that eyes them with contempt and suspicion . . . and will do anything to be rid of them. As the killings escalate, Joshua comes to Max with a dire suspicion: the killer may be one of their own. Tensions are high between normal humans and transgenics, and many inside the protected City would just as soon let the humans fend for themselves. Yet Max and her inner circle know they must investigate the crimes and stop the bloodshed. Doing nothing would simply give the normals more reasons to hate. But what they discover will shock even the most jaded among them—and expose a sinister agenda that leads to an old, nefarious foe. . . .

Secrets and betrayals, as the saga of Dark Angel continues! In a chaotic world where the lines between good and evil often blur, and violent anarchy and brutal repression become commonplace, secrets can be deadly. So when Max discovers a shattering truth that Logan has kept concealed from her for years, the betrayal threatens the very essence of their trust. Yet when Logan is kidnapped, all questions of truth and loyalty are cast aside. Max ’ s search will lead her to a familiar, menacing enemy—and back into the shadow of the Snake Cult, which waits for her with chilling anticipation. But the search will also lead her into wholly unexpected territory. Locked in the fight of her life, Max will discover a captive of the cult who can provide her with the one thing that has haunted her ever since she escaped from Manticore. . . .

The explosive prequel to the hit TV series. Never-before-told tales of action and adventure revealing the early days of Dark Angel! Los Angeles, 2019. Large sections of Tinseltown are in Richter-scale ruins in the aftermath of the Pulse and a devastating earthquake. Surviving among a ragtag pack of street kids, agile as a cat, and an expert thief, Max steals from the rich and gives to Moody, her mentor in crime and leader of the gang. But with no real family to speak of, Max longs for her missing “ brothers and sisters ” from Manticore, the covert agency with a sinister history of militaristic manipulation and control. By chance, Max sees a news story on TV about a dissident cyberjournalist in Seattle, known to everyone as “ Eyes Only. ” The police are searching for his accomplice, a young rebel whose image flashes on the screen. Max immediately recognizes Seth, one of her Manticore siblings. She mounts her motorcycle and hightails it north. What she rides into is an elaborate web of betrayal, greed, revenge, and selfless heroism that will only further fuel her quest to uncover the secrets of her past—and seize hope for the future. . . .
