An excellent contribution to the growing studies on

American films and to the war film genre in particular. The author defines war movies as those in which combat or its influence are central,

File Type PDF Guts And Glory

although
"military
movies" in which
military men are
portrayed in
training or
preserving peace
are also
considered.

Within these
definitions,
Suid selects
several dozen
films from The

Big Parade
(1925) to
Apocalypse Now
and uses them to
develop his main
themes: the
image of the
military
presented to
mass audiences
and the related
question of the
military's
assistance to

film makers. The relationship between Washington and Hollywood that emerges will be a disappointment for anyone seeking confirmation of conspiracy. The Pentagon is always looking for positive
