God ' s existence is a human responsibility, which may or may not happen. For John D. Caputo, God ' s existence is haunted by " perhaps, " which does not signify indecisiveness but an openness to risk, to the unforeseeable. Perhaps constitutes a theology of what is to come and what we cannot see coming. Responding to current critics of continental philosophy, Caputo explores the materiality of perhaps and the promise of the world.

It was Caputo ' s original reading of Derrida that was his most pioneering work, specifically his argument that deconstruction was not a negative or exclusively critical exercise of thought, but instead, that deconstruction is motivated by an affirmative religious passion, and that Derrida can rightfully be read as a religious thinker in his own right.

Caputo's conversational style, full to the brim with metaphor's and puns, is truly enjoyable to read. Its just a great shame that it holds nothing of value intellectually. Instead of finding the winding trip down philosophical memory lane thought provoking, I found it more of a weak cherry picking of arguments to support Caputo's stance on truth.

Truth by John D. Caputo

John D. Caputo is a hybrid philosopher/theologian intent on producing impure thoughts, thoughts which circulate between philosophy and theology, short-circuits which deny fixed and rigorous boundaries between philosophy and theology. Caputo treats "sacred" texts as a poetics of the human condition, or as a "theo-poetics," a poetics of the event harbored in the name of God.

Unfortunately, John D Caputo ' s new book Truth (Penguin, £ 8.99)—the first in a new series of intelligent but accessible volumes of philosophy for people to read on their way to and from work—falls into the latter category.

I love John Caputo. I have only read four of his book, but one of those was The Weakness of God – and that is a crowned jewel in my library. If you have not read it, you can just check out chapter 4 of What Would Jesus Deconstruct? where he summarizes it in about 7 pages. I love when he says things like:

Štofán í k provides a unique, personal reading of weak theology and tries to inhabit the gap between it and its “ founder, ” John D. Caputo. In this distinctive exploration of John D. Caputo ’ s work, Štefan Štofán í k traces Caputo ’ s journey of philosophical discovery from his earlier, more conventional academic writings to his later, almost confessional works of weak theology and his deep engagement with Derrida.

Related resource: In this radical reading of Paul ’ s famous claim that God stands with the nobodies of the world, Caputo explores the idea that the real interest of theology is not God—especially not God as supreme being. Caputo readily admitted that his two books were written for insiders, for those who speak Derridian.

Spring 2015 Report on Weak Theology - Westar Institute

In a thoroughly updated second edition of his popular and engaging book, John D. Caputo revisits Augustine ’ s ancient question "what do I love when I love my God?" and presses it into service in the post-modern world.

In the first in a new series of easily digestible, commute-lengthbooks of original philosophy, renowned thinker John D. Caputo explores the many notions of 'truth', and what it really means Riding to work in the morning has become commonplace. We ride everywhere. Physicians and public health officials plead with us to get out and walk, to get some exercise. People used to live within walking distance to the fields in which they worked, or they worked in shops attached to their homes. Now we ride to work, and nearly everywhere else. Which may seem an innocent enough point, and certainly not one on which we require instruction from the philosophers. But, truth be told, it has in fact precipitated a crisis in our understanding of truth. Arguing that our transportation technologies are not merely transient phenomena but the vehicle for an important metaphor about postmodernism, or even constitutive of postmodernism, John D. Caputo explores the problems posited by the way in which science, ethics, politics, art and religion all claim to offer us (the) "truth", defending throughout a "postmodern", or "hermeneutic" theory of truth, and posits his own surprising theory of the many notions of truth. John D. Caputo is a specialist in contemporary hermeneutics and deconstruction with a special interest in religion in the postmodern condition. The Thomas J. Watson Professor of Religion Emeritus at Syracuse University and the David R. Cook Professor of Philosophy Emeritus at Villanova University, he has spearheaded an idea he calls weak theology.

This thought-provoking book explores the very roots of religious thinking. Draws on contemporary images of religion as well as providing fascinating insights into religious fundamentalism.

This provocative addition to The Church and Postmodern Culture series offers a lively rereading of Charles Sheldon's In His Steps as a constructive way forward. John D. Caputo introduces the notion of why the church needs deconstruction, positively defines deconstruction's role in renewal, deconstructs idols of the church, and imagines the future of the church in addressing the practical implications of this for the church's life through liturgy, worship, preaching, and teaching. Students of philosophy, theology, religion, and ministry, as well as others interested in engaging postmodernism and the emerging church phenomenon, will welcome this provocative, non-technical work.

Written in response to John Caputo's The Prayers and Tears of Jacques Derrida, this work gathers together cutting-edge theologians and philosophers to examine the relationship between Derridan deconstruction and religion. Containing a lengthy counter-response by Caputo, as well as an interview, Religion With/Out Religion will be required reading for all those involved in contemporary theological debate.

In these spirited essays, John D. Caputo continues the project he launched with Radical Hermeneutics of making hermeneutics and deconstruction work together. Caputo claims that we are not born into this world hard-wired to know Being, Truth, or the Good, and we are not vessels of a Divine or other omnipotent supernatural force. Focusing on how various contemporary philosophers develop aspects of this fragmented view of the life world in areas such as madness, friendship, democracy, gender, science, the "end of ethics," religion, and mysticism, this animated study by one of America's leading continental philosophers shakes the foundations of religion and philosophy, even as it gives them new life.

Caputo addresses the religious significance of Heidegger's thought.

Is anything ever not an interpretation? Does interpretation go all the way down? Is there such a thing as a pure fact that is interpretation-free? If not, how are we supposed to know what to think and do? These tantalizing questions are tackled by renowned American thinker John D Caputo in this wide-reaching exploration of what the traditional term 'hermeneutics' can mean in a postmodern, twenty-first century world. As a contemporary of Derrida's and longstanding champion of rethinking the disciplines of theology and philosophy, for decades Caputo has been forming alliances across disciplines and drawing in readers with his compelling approach to what he calls "radical hermeneutics." In this new introduction, drawing upon a range of thinkers from Heidegger to the Parisian "1968ers" and beyond, he raises a series of probing questions about the challenges of life in the postmodern and maybe soon to be 'post-human' world.'

Radical Hermeneutics forges a closer collaboration between hermeneutics and deconstruction than has previously been attempted. For John D. Caputo, hermeneutics means radical thinking without transcendental justification: attending to the ruptures and irregularities in existence before the metaphysics of presence has a chance to smooth over them.

“ A tour de force . . . provocative ideas expressed in Heideggerian, Derridean, and Deleuzian rhetoric . . . for a new wave of Christian theologians ” (Bibliographia). The Insistence of God presents the provocative idea that God does not exist—God insists. God ’ s existence is a human responsibility, which may or may not happen. For John D. Caputo, God ’ s existence is haunted by “ perhaps, ” which does not signify indecisiveness but an openness to risk, to the unforeseeable. Perhaps constitutes a theology of what is to come and what we cannot see coming. Responding to current critics of continental philosophy, Caputo explores the materiality of perhaps and the promise of the world. He shows how perhaps can become a new theology of the gaps God opens. “ John D. Caputo is at the top of his game, and he is not content to reiterate what he has already expressed, but continues to develop his own ideas further by way of a thorough engagement with the fields of theology, Continental philosophy, and religious thought. ” —Clayton Crockett, University of Central Arkansas “ For those allergic to theological certainty whether of God ’ s existence or of God ’ s death Caputo delivers storm-fresh relief: the theopoetics of God ’ s insistence. ” —Catherine Keller, Drew University “ In my life I have read no more stimulating book of theology. Buckle your seatbelt! ” —Dialog “ An excellent text that opens the way into new forms of theological thinking. He puts forward an argument that must be wrestled with and brings to light new avenues for both religious and theological thought. Caputo is not for the faint of heart. ” —Reviews in Religion and Theology

A highly engaging essay that will draw students into a conversation about the vital relationship between philosophy and theology. In this clear, concise, and brilliantly engaging essay, renowned philosopher and theologian John D. Caputo addresses the great and classical philosophical questions as they inextricably intersect with theology--past, present, and future. Recognized as one of the leading philosophers, Caputo is peerless in introducing and initiating students into the vital relationship that philosophy and theology share together. He writes, “ If you take a long enough look, beyond the debates that divide philosophy and theology, over the walls that they have built to keep each other out or beyond the wars to subordinate one to the other, you find a common sense of awe, a common gasp of surprise or astonishment, like looking out at the endless sprawl of stars across the evening sky or upon the waves of a midnight sea. ”
