Inpatient Medicine is the definitive practical manual for learning and practicing inpatient medicine. Its end-to-end coverage of the specialty focuses on both commonly encountered problems and best practices for navigating them, all in a portable and user-friendly format. Composed of lists, flowcharts, and "hot key" clinical insights based on the authors' decades of experience, the Saint-Chopra Guide ushers clinicians through common clinical scenarios from admission to differential diagnosis and clinical plan. It will be an invaluable addition -- and safety net -- to the repertoire of trainees, clinicians, and practicing hospitalists at any stage of their career.

The spectrum and etiology of liver diseases vary widely between East and West and hence the focus and experience of hepatologists also remain varied at two corners of the globe. Hepatology being perhaps one of the most flourishing and evolving discipline of medical sciences, a book with recent information written by experts from all over the world was much needed. The present book fulfills this need. The book will serve as a useful reference manual to consultants, postgraduate students, and residents of Hepatology, Gastroenterology, Internal Medicine, Pathology, Virology, and Preventive Medicine as well as undergraduate clinical medical students. Liver is a comprehensive book that discusses all aspects of diseases ranging from

epidemiology to prognosis. This book is unique in its conception and presentation, as not only it provides new information but also offers a balanced and rational approach to diseases of liver, pancreas, and biliary system. One of the characteristic features of the book is inclusion of diseases of pancreas and separate chapters on important topics like cytokines and chemokines and apoptosis in liver diseases, as a sound background in these is essential for becoming a good specialist. It contains a chapter on evidence-based clinical practice in hepatology, which is the basis of modern clinical practice. It also includes a chapter on preventive aspects of hepato-biliary diseases keeping in mind that prevention of diseases is always preferred to cure. One of the unique features of this book is, it has contributors from all over the world.

The field of hepatology is full of controversies and clinical dilemmas. Each day, gastroenterologists and hepatologists are faced with the challenge of making the best evidence-based decision in challenging cases that do not readily lend themselves to an easy answer, even with today's available medical literature. Controversies in Hepatology: The Experts Analyze Both Sides is based on the principle of an academic debate. Dr. Donald Jensen is joined by 50 colleagues who present evidence-based arguments for and against 17 key

controversial areas in hepatology. Each point-counterpoint is then followed up by a summarization of key points by a leading expert in that topic area. Some Chapter Topics Include:

- Should living donor liver transplantation be considered in adult acute liver failure?
- Should hepatitis C be treated in patients with chronic kidney disease prior to kidney transplant?
- Resect or observe asymptomatic hepatic adenoma?
- Strictly adhere to the “6-month rule” for recent history of alcohol abuse in potential liver transplant candidates?
- Autoimmune hepatitis: maintenance therapy for all patients or stop treatment after histologic remission?

With concise clinical information to reinforce the point-counterpoint text, *Controversies in Hepatology: The Experts Analyze Both Sides* will become the go-to resource for teaching and perfecting the important skills required to weigh the evidence and arrive at an outcome.

This book provides a comprehensive overview of the diagnosis and management of Non-alcoholic Fatty Liver Disease (NAFLD) and Non-Alcoholic Steatohepatitis (NASH).
