Great music has the power to transform. Understanding and appreciating classical music can enlighten, uplift, and educate not only the intellect but the soul. In *The Secret Magic of Music*, classical music devotee and psychiatrist Ida Lichter uncovers a more accessible side of music. By providing the performers' insights, Lichter provides a special look into how great music can bring happiness and spiritual meaning to its listeners.

The best music of the 20th century "developed our capacity for feeling, deepened our compassion, and furthered our quest for and understanding of what Aristotle called 'the perfect end of life' ". — from the Foreword by NPR music critic Ted Libbey

The single greatest crisis of the 20th century was the loss of faith. Noise—and its acceptance as music—was the product of the resulting spiritual confusion and, in its turn, became the further cause of its spread. Likewise, the recovery of modern music, the theme to which this book is dedicated, stems from a spiritual recovery. This is made explicitly clear by the composers whose interviews with the author are collected in this book. Robert Reilly spells out the nature of the crisis and its solution in sections that serve as bookends to the chapters on individual composers. He does not contend that all of these composers underwent and recovered from the central crisis he describes, but they all lived and worked within its broader context, and soldiered on, writing beautiful music. For this, they suffered ridicule and neglect, and he believes their rehabilitation will change the reputation of modern music. It is the spirit of music that this book is most about, and in his efforts to discern it, Reilly has discovered many treasures. The purpose of this book is to share them, to entice you to listen—because beauty is contagious. English conductor John Eliot Gardiner writes that experiencing Bach's masterpieces "is a way of fully realizing the scale and scope of what it is to be human". The reader may be surprised by how many works of the 20th and 21st centuries of which this is also

In 1921, insurance executive Charles Ives sent out copies of a piano sonata to two hundred strangers. Laden with dissonant chords, complex rhythm, and a seemingly chaotic structure, the so-called Concord Sonata confounded the recipients, as did the accompanying book, *Essays before a Sonata*. Kyle Gann merges exhaustive research with his own experience as a composer to reveal the Concord Sonata and the essays in full. Diffracting the twinned works into their essential aspects, Gann lays out the historical context that produced Ives's masterpiece and illuminates the arguments Ives himself explored in the *Essays*. Gann also provides a movement-by-movement analysis of the work's harmonic structure and compositional technique; connects the sonata to Ives works that share parts of its material; and compares the 1921 version of the Concord with its 1947 revision to reveal important aspects of Ives's creative process. A tour de force of critical, theoretical, and historical thought, Charles Ives's Concord provides nothing less than the first comprehensive consideration of a work at the heart of twentieth century American music.

Mozart's orchestral-inspired Sonata in D Major, K. 311 contains elaborate pianistic treatment and an exciting sonata-rondo finale with a cadenza worthy of one of Mozart's concertos. The flashy third movement is full of many contrasts involving dynamics, mood and texture. Throughout the sonata, the left hand becomes a true partner in all aspects of the composition, and thematic material is spread over different registers of the keyboard.

This study analyzes chamber music from Mozart's time within its highly social salon-performance context.

Frantz Fanon was one of the twentieth century 's most important

theorists of revolution, colonialism, and racial difference, and this, his masterwork, is a classic alongside *Orientalism* and *The Autobiography of Malcolm X*. *The Wretched of the Earth* is a brilliant analysis of the psychology of the colonized and their path to liberation. Bearing singular insight into the rage of colonized peoples and the role of violence in historical change, the book also incisively attacks postindependence disenfranchisement of the masses by the elite on one hand, and intertribal and interfaith animosities on the other. A veritable handbook of social reorganization for leaders of emerging nations, *The Wretched of the Earth* has had a major impact on civil rights, anticolonialism, and black-consciousness movements around the world. This new translation updates its language for a new generation of readers and its lessons are more vital now than ever.

Developed at Carleton University, Ottawa, this is a comprehensive workbook -- now in its second, revised edition -- designed primarily for use with introductory courses in linguistics. With 334 graded exercises and problems from more than 60 languages and dialects.

Take a romp through the long eighteenth-century in this collection of 25 short tales. Marvel at the Queen ' s Ass, gaze at the celestial heavens through the eyes of the past and be amazed by the equestrian feats of the Norwich Nymph. Journey to the debauched French court at Versailles, travel to Covent Garden and take your seat in a box at the theatre and, afterwards, join the mile-high club in a new-fangled hot air balloon. Meet actresses, whores and high-born ladies, politicians, inventors, royalty and criminals as we travel through the Georgian era in all its glorious and gruesome glory. In roughly chronological order, covering the reign of the four Georges, 1714-1730 and set within the framework of the main events of the era, these tales are accompanied by over 100 stunning color illustrations.

The New York Times bestselling Culture novel... The Scavenger species are circling. It is, truly, provably, the End Days for the Gzilt

civilization. An ancient people, organized on military principles and yet almost perversely peaceful, the Gzilt helped set up the Culture ten thousand years earlier and were very nearly one of its founding societies, deciding not to join only at the last moment. Now they've made the collective decision to follow the well-trodden path of millions of other civilizations; they are going to Sublime, elevating themselves to a new and almost infinitely more rich and complex existence. Amid preparations though, the Regimental High Command is destroyed. Lieutenant Commander (reserve) Vyr Cossont appears to have been involved, and she is now wanted - dead, not alive. Aided only by an ancient, reconditioned android and a suspicious Culture avatar, Cossont must complete her last mission given to her by the High Command. She must find the oldest person in the Culture, a man over nine thousand years old, who might have some idea what really happened all that time ago. It seems that the final days of the Gzilt civilization are likely to prove its most perilous.

The author's fascinating life, from his early musical education to his world tours, is covered in an entertaining and informative autobiography that also includes several of his short stories and commentaries on world events and academia.
