Background and Identification. Sony began the Xperia Z line of smartphones with the Xperia Z in 2013, and produced new phones until the line was discontinued in February 2016 to make room for the Xperia X series. The Xperia Z was unique at the time of its reveal because of its intense waterproofing- it was advertised that the phone could be safely submerged in water for up to 30 minutes, and play music while underwater.

With the release of the DSC-RX100 II camera, Sony has built upon the success of the earlier RX100 model, adding a hot shoe, tilting LCD screen, Wi-Fi capability, upgraded digital sensor, and several other enhancements. White Knight Press, which published a widely praised guide to the RX100, has released this new guide book that addresses all of the new features of the RX100 II and includes a full discussion of the many advanced features that are common to both camera models. With the publication of Photographer's Guide to the Sony DSC-RX100 II, author Alexander White provides users of the RX100 II with a guide to all operations, features, menus, and controls of the camera. Using a patient, tutorial-like approach, the book shows beginning and intermediate photographers not only how to accomplish things with the RX100 II, but when and why to use the camera's many features. The book does not assume specialized knowledge by the reader as it explains topics such as autofocus, manual focus, depth of field, aperture priority, shutter priority, exposure compensation, white balance, and ISO sensitivity. The book provides full details of the camera's numerous shooting modes as well as its many menu options for shooting, playback, setup, and special effects. The book includes full coverage of the new features of the RX100 II, including the use of the camera's built-in capability to transfer images and videos over a wireless network and to allow the camera to be controlled remotely by a smartphone or tablet. The book includes approximately 400 photographs, most in full color, which illustrate the camera's controls, shooting screens, and menus. The images also provide examples of the types of photographs that can be taken using the many creative settings of the camera, including the Photo Creativity settings, which let the photographer alter the color processing of images; the Scene shooting mode, with settings that are optimized for various subjects, including landscapes, portraits, and action shots; the Creative Style and Picture Effect menu options, which offer dramatic options for altering the appearance of images; and the camera's strong array of features for continuous shooting and shooting in dim lighting. In addition, the book goes beyond the bounds of everyday photography, and provides introductions to more advanced topics such as infrared photography, street photography, astrophotography, digiscoping, and macro photography. The book also includes a full discussion of the video recording abilities of the RX100 II, which can shoot high-definition (HD) video with stereo sound, and which offers manual control of exposure and focus during movie recording. In three appendices, the book provides information about accessories available for the RX100 II, including cases, external flash units, viewfinders, and filter adapters, and includes a list of web sites and other resources for further information. Also, the book includes a detailed appendix with helpful "quick tips" that give particular insights into how to take advantage of the camera's features in the most efficient ways possible.

Siapa yang tak kenal dengan Pokémon GO? Permainan yang begitu mewabah. Bahkan meski belum dirilis secara resmi di Indonesia, banyak orang sudah memainkannya. Pokémon GO begitu popular karena keunikan permainannya dan karakter-karakter Pokémon yang lucu dan menggemaskan. Pemain diharuskan bepergian ke lokasi-lokasi di dunia nyata untuk mendapatkan Pokémon atau objek apa pun dan event tertentu. Temukan panduan lengkap tentang Pokémon GO mulai dari gameplay, cara menangkap pikachu sebagai Pokémon pertamamu, cara super cepat untuk level up, memilih Pokémon yang tepat untuk battle, cara melempar Poké Balls, cara memenangkan tiap battle Pokémon dan menjadi gym master, komunitas, interview dengan Gym master, Cara menginstal Pokémaps di komputer dan handphonemu, cara memunculkan notifikasi jika ada Pokémon di sekitar lokasimu! Tentunya Sobat tidak ingin kalah bersaing dengan teman-teman, bukan? Nah, buku ini harus Sobat miliki! Semua yang Sobat butuhkan untuk menjadi Master Pokémon ada di sini.

The four-volume set LNCS 8925, 8926, 8927 and 8928 comprises the thoroughly refereed post-workshop proceedings of the Workshops that took place in conjunction with the 13th European Conference on Computer Vision, ECCV 2014, held in Zurich, Switzerland, in September 2014. The 203 workshop papers were carefully reviewed and selected for inclusion in the proceedings. They where presented at workshops with the following themes: where computer vision meets art; computer vision in vehicle technology; spontaneous facial behavior analysis; consumer depth cameras for computer vision; "chalearn" looking at people: pose, recovery, action/interaction, gesture recognition; video event categorization, tagging and retrieval towards big data; computer vision with local binary pattern variants; visual object tracking challenge; computer vision + ontology applies cross-disciplinary technologies; visual perception of affordance and functional visual primitives for scene analysis; graphical models in computer vision; light fields for computer vision; computer vision for road scene understanding and autonomous driving; soft biometrics; transferring and adapting source knowledge in computer vision; surveillance and re-identification; color and photometry in computer vision; assistive computer vision and robotics; computer vision problems in plant phenotyping; and non-rigid shape analysis and deformable image alignment. Additionally, a panel discussion on video segmentation is included.

The proceedings gather a selection of refereed papers presented at the 7th International Conference on Kansei Engineering and Emotion Research 2018 (KEER 2018), which was held in Kuching, Malaysia from 19 to 22 March 2018. The contributions address the latest advances in and innovative applications of Kansei Engineering and Emotion Research. The subjects include: Kansei, Emotion and Games Kansei, Emotion and Computing Kansei, Emotion and Wellbeing / Quality of Life Kansei, Emotion and Design Kansei, Emotion and Health / Ergonomics Kansei, Emotion and Multidisciplinary Fields Kansei, Emotion and Culture Kansei, Emotion and Social computing Kansei, Emotion and Evaluation Kansei, Emotion and User Experience The book offers a valuable resource for all graduate students, experienced researchers and industrial practitioners interested in the fields of user experience/usability, engineering design, human factors, quality management, product development and design.
