Role play is an effective teaching strategy for nursing education. Patient behaviors can be simulated by the nursing students in order to gain clinical competencies. 39 Students' communication skills will be improved in the process of role playing through the multiple experimental environments.

## ~~Toolbox of teaching strategies in: Frontiers of Nursing ...~~

In terms of nursing education, concept mapping is a great strategy for teaching clinical care planning. Concept mapping of clinical problems allows students to see interrelationships in clinical data and grasp a patient's total clinical picture. In this case, students do not need to copy the care plan from the textbook any more.
