Located just north of the Mason-Dixon Line in southern York County, New Freedom quickly developed into a thriving industrial town because it was situated on the major north-south railroad route that linked Harrisburg with Baltimore, Maryland. The local industries included a wire cloth factory, a cannery, several sewing factories, and two plastics manufacturers. Due to its beautiful rural setting, New Freedom was also home to the Summit Grove Campground, a religious retreat established by the Methodist Church in 1872. on the eve of the Civil War. "Four decades ago, Harry Jaffa offered powerful insights on the Lincoln-Douglas debates in his *Crisis of the House Divided*. In this long-awaited sequel, he picks up the threads of that earlier study in this stimulating new interpretation of the showdown conflict between slavery and freedom in the election of 1860 and the secession crisis that followed. Every student of Lincoln needs to read and ponder this book."— James M. McPherson, Princeton University "A masterful synthesis and analysis of the contending political philosophies on the eve of the Civil War. A magisterial work that arrives after a lifetime of scholarship and reflection—and earns our gratitude as well as our respect."— Kirkus Reviews "The essence of Jaffa's case—meticulously laid out over nearly 500 pages—is that the Constitution is not, as Lincoln put it, a 'free love arrangement' held together by passing fancy. It is an indissoluble compact in which all men consent to be governed by majority, provided their inalienable rights are preserved."— Bret Stephens; *The Wall Street Journal*

Traces the history of the civil rights movement in Mississippi, and describes how ordinary men and women became caught up in the struggle

Bondspeople who fled from slavery during and after the Civil War did not expect that their flight toward freedom would lead to sickness, disease, suffering, and death. But the war produced the largest biological crisis of the nineteenth century, and as historian Jim Downs reveals in this groundbreaking volume, it had deadly consequences for hundreds of thousands of freed people. In *Sick from Freedom*, Downs recovers the untold story of one of the bitterest ironies in American history—that the emancipation of the slaves, seen as one of the great turning points in U.S. history, had devastating consequences for innumerable freed people. Drawing on massive new research into the records of the Medical Division of the Freedmen's Bureau—a nascent national health system that cared for more than one million freed slaves—he shows how the collapse of the plantation economy released a plague of lethal diseases. With emancipation, African Americans seized the chance to move, migrating as never before. But in their journey to freedom, they also encountered yellow fever, smallpox, cholera, dysentery, malnutrition, and exposure. To address this crisis, the Medical Division hired more than 120 physicians, establishing some forty underfinanced and understaffed hospitals scattered throughout the South, largely in response to medical emergencies. Downs shows that the goal of the Medical Division was to promote a healthy workforce, an aim which often excluded a wide range of freedpeople, including women, the elderly, the physically disabled, and children. Downs concludes by tracing how the Reconstruction policy was then implemented in the American West, where it was disastrously applied to Native Americans. The widespread medical calamity sparked by emancipation is an overlooked episode of
